

A Christmas gift box has...

four paws!!!

Europe's trends in Christmas gifts are changing!

Present your beloved ones with a very special gift—and thus do something unconventional, something absolutely against the ever-present consumerism. Instead of one more necktie, a book or a coffee set choose... the thankfulness of the most faithful friend. In our online store you can buy a handful of warmth for cold winter nights, an injection of happiness or an exquisite meal in a canteen at our animal shelter.

How it works?

A: Choose an animal:

More options at www.psitulmnie.pl/galeria.php or you leave the choice of a pet to us.

B: You choose a gift from the list below:

1. *virtual adoption* **10 Euro per month**

For this sum of money you will become a **virtual carer** of one of the pets in our animal shelter, a dog or a cat. Your virtual pet will then be well looked after and provided for with a place under a warm roof, loving care of our volunteers, but most important of all, with a bowlful of food every day. If it could your pet would surely tip you generously for such an excellent meal!

2. *collar with a leash*: **10 Euro**

For this sum of money one of our dogs will be given its **own collar with a leash**. This will enable our volunteers to take your dog for walks and then teach the pet how to behave during a walk. Is there anything else dogs like more?
